

For Immediate Release

GARCO CONSTRUCTION EARNS SPOT ON ENR'S TOP 400 CONTRACTORS LIST

Spokane, Wash. —

Engineering News-Record (ENR) just released the 2020 Top 400 Contractor list (US firms) and Garco Construction secured a spot on the list at 366 (up 13 spots from 2019 ranking). Each year, ENR publishes this list based on the revenue derived by each US firm from construction contracts, the construction portion of design-build contracts and construction management work that involves financial risk equivalent to that of a general contractor.

Garco President Clancy Welsh says, “We want to thank all of our valued clients for helping us achieve this. They have provided the opportunities throughout the past 41 years that allowed Garco to grow. Those opportunities, combined with the exceptional talent and dedication of our employees who make us who are, have directly impacted our ability to achieve this growth.

The first half of 2020 has brought challenging times that we continue to deal with; however, the quality of our staff and ongoing support of our clients have allowed Garco to continue to grow.”

Find the official list and cover story on ENR's site [here](#).

ABOUT GARCO

Since 1978, Garco Construction has been building better communities, creating lasting values and exceeding expectations. Garco is one of the largest general contractors in the Inland Northwest. The company has completed more than 2,000 successful projects and employs more than 350 people. Garco offers construction, construction management and design-build services for clients across a broad range of industries including, but not limited to, commercial, healthcare, education, hospitality, civil, and military. The company has two locations: Spokane, Wash. and Tacoma, Wash. Learn more at garco.com.
